The Life of Henry the

Enter Prologue.

O For a Muse of Fire, that would ascend
The brightest Heauen of Invention :
A Kingdome for a Stage, Princes to Act,
And Monarchs to behold the swelling Scene.
Then should the Warlike Harry, like himselfe,
Assume the Port of Mars, and at his heeles
(Least in, like Hounds) should Famine, Sword, and Fire
Crouch for employment. But pardon, Gentles all:
The flat vnrayed Spirits, that hath dar'd,
On this vnworthy Scaffold, to bring forth
So great an Obiect. Can this Cock-Pit hold
The vastie fields of France? Or may we cramme
Within this Woodden O, the very Caskes
That did affright the Ayre at Agincourt?
O pardon: since a crooked Figure may
Attest in little place a Million,
And let vs, Cyphers to this great Accompt,

On your imaginarie Force.
Suppose within the Girdle
Are now confin'd two millions
Whose high, up-reared, and
The perillous narrow Ocean
Peerce out our Imperfections:
Into a thousand parts divide
And make imaginarie Powers
Thinke when we talke of Hostes
Printing their prowd Hoefes
For 'tis your thoughts that
Carry them here and there
Turning th'accomplishment
Into an Howre-glasse: for
Admit me Chorus to this
Who Prologue-like, your humble
Gently to heare, kindly to

Actus Primus. Scœna Prima.
